- Habitat evolution. *See also* Evolution
 basic outline of, 55–71
 cause of variations in, 58
 generates adaptive solutions, 55
 human intelligence in, 10–12, 70
 human selection, 60
 million times faster than biotic, 55
 no replicator for inheritance, 63
 not Darwinian, 67
 selection of components for fitness, 62
 three components of, 56, 75
- Hierarchy
 conflicts with intelligence, 111
 contractual, 114
 corporate, 111
 dominance in pre-humans, 110
 end of dominance, 89
 social classes, 96
 state imposed, 119
- Hodgson, Geoffrey, 65
- Homo erectus, 34, 88
- Hont, Istvan, 127
- Human equality
 as a birthright, 223
 by suppressing dominance, 36
 from nature, 201
 from reform, 205
 in access to land, 134
 in communism, 123
 in democracy, 123
 in the Stone Age, 99
 of consumers and producers, 186
 political, 36
 sexual, 15, 89, 95
 through meritocracy, 159
 under global law, 52, 137
- Human rights. *See also* Human equality
 exclude animals, 131
 improve quality of life, 133
 of pregnant women, 129–31
 threatened by democracy, 107
 UN Declaration of, 161–64
 versus political correctness, 132
- Hunter-gatherers
 coercion, prohibition of, 90–91
 culture, 31–33, 36–37
 egalitarian society, 89
 slavery not viable, 90
- Ideologies
 communist, 122
 nationalist, 123
 personality cult, 122
 religious, 122
 social democratic, 123
 socialist, 123
 supremacist, 122
 tools of state oppression, 121
- Immigration controls
 abolition of, 135–36
 stop "disruptive" immigration, 135
- Intellectual property
 abolition called for, 190
 as protectionism, 187–92
 copyright as censorship, 188
 IP monopoly not needed, 191
 over-charging drives "piracy", 190
 patents as rent-seeking, 187
 slowed industrial revolution, 188
- Invention
 requires variation and selection, 61
- Kelly, Raymond, 92
- Kendall, Henry, 15
- Knudsen, Thorbjorn, 65
- Kokesh, Adam, 212
- Law
 citizens' contract, 164
 coherent, tort, 156–59
 conflict of jurisdictions, 161
 defects of traditional, 153–54, 166
 equality under, 90–91
 four essential laws, 154, 156
 global, natural, 101, 107, 153–69
 global, with diverse cultures, 160
 shared cost of, 155
 state is above the law, 99
 who bears the cost, 155
- Lazarou, Jason, 13
- LeBlanc, Steven, 13
- Lee, Richard B., 16, 33
- Leitenberg, Milton, 12
- Libertarianism, 107
 and diversity, 219
 and limited liability, 179
 non-aggression, 37

- regulation by contract, 166
 - strong law & government, 168, 218
- Limited liability, 176–81

Lindsey, Brink, 149

Lumsden, Charles J., 64

Maladaptation

- attrib. to genes, 21–23
- attrib. to population growth, 17–19
- attrib. to social organization, 28–29
- attrib. to technology, 16–17
- attrib. to technology side-effects, 23–25
- attrib. to unsustainability, 19–21
- examples of, 12–15
- of modern humans, 90

Malthus, Thomas, 18

Manning, Richard, 12, 19

Manufacturing, unsustainable, 104

Marx, Karl, 184

McConkey, Michael, 109, 229

Meadows, Donella H., 17

Media, news

- could support healthy society, 79
- subservient to state, 77

Memes, 64

Microfinance, 208–10

Military conscription, 131

Mises, Ludwig von, 198

Mohler Jr., Albert, 163

Molyneux, Stefan, 51

Morality

- as evolved control system, 79
- states operate on self-interest, 79

Morgan, Patricia M., 49

Morris, Desmond, 50

Morse, Jennifer R., 49

Mosher, Steven W., 19

Non-aggression principle, 37–38

- alternative is slavery, 169
- as human nature, 53
- in early law, 98
- in global law, 127, 155
- to block state aggression, 153

Obesity, 44

Pinker, Steven, 61

Pollution, 14, 44–45

Population

- decline of, 13
- growth of, 12
- myth of over-population, 103
- sustainable, 104

Prisons, 45

Pritchett, Lant, 199

Professional competence, 207

Professional monopolies, 206

Property rights, 135, 155

- extension of, 138–39
- land reform, 139

Public goods, 141–51

- bee pollination of crops, 143
- causes of welfare need, 147
- city planning, 145
- defense, 141
- enforced schooling. *See* Education
- extreme threats to society, 150
- global market for cities, 145
- medical services, 147
- morality replaced by coercion, 149
- non-rivalrous, 142
- recreational parks, 144–46
- welfare, taxation funded, 149
- welfare, voluntaryist, 149
- wilderness, 146

Rand, Ayn, 37

Regulation, state

- blocks cultural evolution, 82
- blocks justice, productivity, 199
- comprises rent-seeking, 109

Religion

- as tool of state, 90
- biological significance of, 216
- scientific truth, 216–18

Richerson P.J. and Boyd R., 62

Richman, Sheldon, 175

Rothbard, Murray, 37, 166, 180

Schmitt, Carl, 109

Schooling, enforced. *See* Education

Scientific community

- ignores parasitism of state, 213
- responsible to human species, 105

Selectionism, 58

Self-ownership, 129

Sexual equality. *See* Human equality

Single parents, 47

Smith, Adam, 195

Social insects. *See* Emergence

Social organization

- autonomous communities, 75
- distorted by military conquest, 73

Sovereignty

- abolition of, 211
- negates human rights, 107
- result of military conquest, 127

Starvation, 44

States. *See also* Government

- as tax farmers, 51, 99
- as the most harmful side-effect of technology, 87, 100
- coercion arose from conquest, 43
- coercion makes people passive, 77
- coercion versus intelligence & contract, 106
- empower religious cruelty, 39
- fails against major threats, 109
- hierarchy, ideology & coercion, 105
- humans awaken to crisis of, 41–46
- increase wealth differentials, 173
- maintain a monopoly of force, 127
- marginalize family/community, 46–49, 55
- mutual insecurity of, 39, 90
- need to abolish coercion, 85
- not recognized as parasitic, 100
- origins of, 95
- parasitism blocks morality, 75
- pathology of civilization, 41
- result of military conquest, 87
- suppression of human rights, 105
- to disappear by mid-21st C., 87
- welfare for industries, 83

Suicide, 46

Taxation as theft, 83

Technology

- adaptive for humans, 84
- adaptive nature of, 25–28
- damage to human lifecycle, 41
- maladaptive for humans, 84

The Blind Watchmaker, 59

Thoreau, David, 16

Thornton, Mark, 46

Tocqueville, Alexis de, 82

Trade. *See* Free markets

- China's fall and rise, 203
- immorality of restrictions to, 205
- lowers wealth differentials, 203
- monopolies cheat society, 206
- privilege or social justice, 205

Tribal societies, 93

United Nations, 15

- (for Declaration of Human Rights, *See* Human rights)

UNU-WIDER, 181

Warfare, 12, 38

- benefits to state, 97
- conducted by states, 91
- conventional, 43
- nuclear, 43
- origins of, 91–93
- rare in early Paleolithic, 91
- warrior class, 97

Warning to Humanity, 15

Wealth differentials

- globally equalized by freedom, 103
- increase by state intervention, 197
- increase by trade protection, 194
- raised by corporations, 178, 181
- reduced by competition, 196

Welfare. *See* Adaptive Civilization and States
